Dear Sir/Madam,

I see the Software Developer position in your Organization as a window of opportunity that I can't afford to miss. I learned of your company through the Career Resource Center at University of Florida, Gainesville. I am currently pursuing my Masters in Computer Science at University of Florida, Gainesville and will receive my degree in Spring 2018. While I have a comprehensive Computer Science background, my emphasis is on software development. I feel that your firm places prominence in similar areas and having the privilege of serving as a software developer with you will give me that further exposure I need to advance in my career. Also as an experienced software engineer with expert knowledge in **C#, Java, Angular4, Python, SQL and REST APIs**, I feel confident that I am the right person to help your Organization reach the next level of success. I offer 3 years of development experience, a strong aptitude for learning new technologies, and a proven track record of meeting aggressive goals. My most notable skills include:

- **Software Development:** I bring over 3 years of experience developing software and algorithms for real time operating systems for multiple products and clients in various environments. I possess solid knowledge of **Java, C#, JavaScript, Python, Docker, Git, PostgreSQL, Elixir, CSS, HTML, MSSQL**. I have experience developing in various operating systems and tools viz., Linux/Unix, Mac OS X and Microsoft Windows. I also possess knowledge of various web development tools such as CSS, .NET and HTML. In addition to this, I have experience in developing scalable and distributed multi processed application with functional programming language known as Elixir. I also have keen interest in the field of computer network security and have worked on various research projects in this field. I have also developed a fun android game using Libgdx library and android studio.
- **Project Management:** I have been successful in providing high-level technical direction to drive projects from conception and design through QA and deployment. Also during my tenure with Infosys Limited, I have successfully handled a team of spirited team members.
- **Communication Skills:** I am comfortable communicating with technical and non-technical employees throughout the company to complete projects and achieve organizational goals.

Overall, I feel that my knowledge as a programmer and my passion for new technologies makes me the ideal candidate to meet your development needs. I'd be glad to discuss my abilities and background with you in more detail. Thank you for your time and consideration.

Sincerely,

Nakshatra Sharma
